#### Helping the Environment

Even décor can be good for the environment, if you put your mind to it.

That was the challenge facing **Steve Kemble** Event Design and Fun Factory Events of Dallas. The company turned the corporate hospitality suite at the Four Seasons Resort and Club in Las Colinas, Texas, green.

Kemble and his company created a comfortable and inviting space using recycled cardboard for check-in tables, end tables, coffee tables and ottomans proving that green can be luxurious.

Additionally, cotton linens, green fresh floral with green fruit, natural bamboo chavari chairs and thick natural tan carpet accented

the environmentally friendly space.

"Hopefully as event professionals we will begin to set standards that encourage others to incorporate a green element into their events" says Kemble.
